The State fund has not been received, nor the dog tax from the county, therefore they do not appear in this Report. The teachers have been paid to the close of the term ending Nov. 22, 1878, as as well as most of the janitors.

Respectfully submitted,

JOSEPH E. FISKE,

Secretary.

REPORT OF THE SCHOOL COMMITTEE.

The reduction of the appropriation by the town for the support of schools made it necessary for the School Committee to devise means to do the school work upon some more economical plan. Three schools, in consequence, were discontinued, and the establishment of another, thought necessary, postponed; the spring vacation was lengthened two weeks, and the salaries of the teachers were reduced by varying amounts. The expenditures have been brought within the appropriation. That the progress of the pupils has been materially hindered the past year the Committee do not believe. The promised improvement in business does not yet appear, the prices of necessities of life are lower than a year since, and the salaries of our teachers are probably sufficient to retain them or supply their places with others of equal ability. It should be remembered that fourteen out of the thirty-seven weeks of the year were kept at the higher rates of salary, and that the salary of the Grammar teachers, for instance, which appears at \$472 on the financial report, is really but \$444, against \$560 when the school year was forty weeks in length.

Although we have instituted a new school at Grantville, and put assistants into the schools at Wellesley, the Centre and Lower Falls, we believe that the duplication of the appropriation of the present year will be sufficient for the ensuing one.

During the past year about twenty scholars, living near the Natick line, have attended school in that town, and their tuition has been paid at the rate of \$12 per pupil.

There have been an unusual number of changes of teachers, some of them on account of the lowering of wages, not in all cases to the benefit of the schools.

The High Schools seem to be in a prosperous condition, and the teachers to be familiar with their work, and fond of it.

The Grammar School teachers are peculiarly conscientious and painstaking, as are indeed the teachers of the lower grades, most of the more experienced of whom are model teachers in efficiency.

Several, of less practical and educational training, while perhaps not less praiseworthy in their efforts, have yet to attain to the excellence of their more experienced colleagues. It must be remembered that the Committee is sometimes assisted in the selection of teachers, and upon the whole it is thought best to secure persons who might not always, of and in themselves, be deemed wisest selections.

The number of pupils at present upon the registers of our different schools is as follows:—

East High School,	38
West High School,	34
Plain Grammar School,	22
Plain Intermediate School,	50
Plain Primary School,	47
Highlandville Grammar School,	32
Highlandville Intermediate School,	37
Highlandville Primary School,	30
Highlandville Sub-Primary School,	30
East Grammar School,	24
East Primary School,	36
Centre Primary School,	61
Parker Mixed School,	34
Greendale Mixed School,	16
Hunnewell Grammar School,	29
Hunnewell Primary School,	56
Shaw Grammar School,	23
Shaw Primary School,	33
Shaw Intermediate School,	30
Lower Falls Grammar School,	34
Lower Falls Primary School,	45
Unionville Mixed School,	18
	<u>764</u>

Two years ago we called attention to the undue preponderance, as we thought, given to our High Schools in the system of teaching in this State, and intimated that it might be public policy to lay the greater stress upon practical attainment for the many rather than the highest acquirement for the few. This belief we still hold, and are of the opinion that the tendency of patriotic thought is to recognize the necessity of a reasonably advanced education of the *mass* of our children by means of the public purse. There is no danger now that opportunity for higher education will be denied any who earnestly desire it, in this State at least. The fear is that

the common branches will not be taught to the lowly or less ambitious. There are two distinct phases to this question — one, that of the justice of educating the few at the expense of the many, which, though serious, is not of first importance; the other is the subordinating the absolutely practical and daily useful knowledge to the preparatory and theoretic training. The influence of teachers in the higher grade of schools is always in favor of preparation for life-long study and drill, while most of the children stop studying when they leave the public schools.

We must teach children facts, and not merely *how* to learn; in other words, our schools should be preparatory for real life, not for other and higher educational institutions. We desire in no sense to be understood as decrying higher education; we are asking for all a *completed* education.

During the past year an organized attempt has been made on the part of committees of the towns in Norfolk County to compare and combine work, with encouraging success. The practical business done has been the preparation of a course of study for primary schools — and is eminently worth the attention of teachers of that grade, and, indeed, of parents interested in the education of their children, — and the examination, with one set of questions prepared by most competent hands, of all the school children of the county who have been in school four or eight years. The gentlemen who have instituted this are to be congratulated upon the method adopted and the exceedingly happy manner in which it has been carried into execution. The report of results will probably suggest to us defects and possibilities in a most practical and useful way.

It may be proper to say that the State officials concerned in educational matters seem to have awakened from a somewhat profound sleep, and are doing very useful work. They will be safe guides to follow if they pursue their present way.

We cordially commend the Secretary's plan of "District Supervision," by which two or three towns, more or less as circumstances determine, may unite in employing an approved supervisor, who will give to the schools under his charge a trained and experienced care which cannot be had with our present desultory and erratic method, and that, too, without the slightest increase of expense.

Respectfully submitted for the Committee,

JOSEPH E. FISKE.

STATEMENT OF EXPENDITURES AUTHORIZED BY THE SELECTMEN AND OVERSEERS OF THE POOR.

GENERAL REPAIRS OF HIGHWAYS.

H. McLeod, for building forty perches of wall on Cedar Street, and digging for foundation,	\$85 00

SELECTMEN'S REPORT.

It is with pleasure that we are able to report still another reduction in our tax-rate. The citizens, at their last annual meeting, very wisely made no appropriations except those which were absolutely required, and those, as we believe, have been judiciously expended. The rate of taxation this year, with a reduction of ten (10) per cent. in the valuation, is \$9.40 per \$1,000, the average rate for Norfolk County being \$11.63 per \$1,000; for the State, \$12.54.

With the return of prosperity, which we feel is in the immediate future, and with judicious appropriations, together with economical expenditures of the same, there need be no fear but that we shall be favored with low taxes, and ere long have many improvements which seem desirable.

The past year has been one of general quiet, so far as public works are concerned. The town, at its last annual meeting, made but two appropriations, outside of the regular ones required for the current expenses,—one of which was for Brook Street; the other for the building of a school-house in the Central District, which was done entirely under the direction of the Building Committee.

HIGHWAYS.

This year your Selectmen employed two superintendents of streets,—Mr. Augustus Stevens for the west part, and Mr. Charles H. Dewing for the east; both, as we believe, have given universal satisfaction, in regard to the amount and quality of the work done.

We think it is generally conceded that the roads of Needham are as good, if not better, than those of adjoining towns or cities.

Mr. Dewing being obliged to use large sums on three special jobs, could not make quite as good a showing of the money as he would like to have done.

To avoid driving the town teams so far, we have caused two teams (3 horses) to be kept at the Plains during the last season, the town furnishing their feed.

The number of horses owned by the town is six, five having been constantly employed on the highways. Two of the above being old and entirely unfit for such work, we have thought advisable to dispose of them; one of which has been sold, and the other stolen, together with one of the most valuable horses the town owned. Should the town continue the present system of working the highway grant, we shall be obliged to ask for an appropriation of about \$700 to replace the horses, and furnish two or three new carts.

BROOK STREET.

(From Great Plain Avenue to Benvenue Street.)

The appropriation for Brook Street was \$800. The contract for building both the arch culvert and the road from Great Plain Avenue to the Cemetery, was awarded to Mr. David F. Henderson, who has completed them to the satisfaction of the Selectmen and Engineer. Your Board, believing it to be for the best interest of the town, built a larger culvert than would ordinarily be needed, so that there might be *no probability* of its *ever* being insufficient for the place. The appropriation being insufficient to complete the whole street, to Benvenue Street, and in consideration of the unsafe condition of the old bridge, we thought it best to build a substantial bridge, and road as far as the appropriation would allow; it will, probably, cost a sum not exceeding two hundred dollars (\$200) to complete the street.

We would suggest the importance of building larger culverts than are usually built, and of enlarging those being rebuilt. Complaints are constantly made of culverts being too small to carry off the water after heavy rains.

GRAVEL LAND.

The Board being aware of the large amount paid annually, for gravel, and, in many cases the great distance it had to be carted, have purchased of Mrs. Catherine P. Ireland, about 49,000 feet of land, lying in the rear of the Appleton Temporary Home, on the corner of two proposed streets, with a right of way to May and Webster Streets. We have also bought of E. Marietta Smith, trustee, the gravel on about 24,000 feet of land, situated within 500 feet of Washington Street, near the residence of H. F. Durant, Esq. At the next annual meeting we shall ask for an appropriation of \$500, to pay for the former; while the latter is to be paid for in

four annual payments, of \$100 each, and for which there will be no appropriation needed—the town having five years from November 1st, 1878, to remove the gravel.

We also purchased gravel of Abimelech Burrows, on about 10,000 feet of land, lying between Webster Street and Greendale Avenue, for \$25, with five years to remove the same, or to December 1st, 1883, for which no appropriation will be needed.

PETITION FOR NEW STREETS.

On petition of G. H. Howison, and others, that the street leading from Linden Street, near the Boston and Albany Railroad, to Worcester Street, be laid out as a public way; the street was built, and has been used as a public street for the last five or six years, and kept in repair by Mr. John Sawyer. The street is 950 feet long, and we consider it a public necessity, as it is the only street leading from Washington to Worcester Street, between Wellesley and Grantville. There are already three houses on the street, and there will be no land damage. It will require an appropriation of about \$200, for which we shall ask at the next annual meeting.

On petition of Mr. Henry Smith, and others, that Union Street, running from Hillside Avenue to Rosemary Hill Street, in Highlandville, be laid out as a public way. There are four houses on said Union Street. No land damage. Petition granted. We also shall ask for an appropriation of \$125 to build the same.

We have had a number of other petitions, and upon making an examination of the locations, we decided that the public demand was hardly sufficient to warrant them, and, therefore, have laid them aside until more prosperous times.

HIGHLAND AVENUE.

The County Commissioners have ordered the re-location, for the purpose of widening and straightening this avenue, with a change of grade, to be completed in the fall of 1879. They also order that \$500 of the \$1,300 land damage awarded, be paid by the town; with an approximate of the cost of rebuilding the same, we shall be obliged to ask for at least \$2,250.

ALMSHOUSE.

That this institution still remains under the charge of Mr. and

Mrs. Peabody is a sufficient guarantee that the interests of the town are carefully looked after, and that the poor and unfortunate are well and economically provided for; the number of inmates at present is eight. We have moved the building known as the "small-pox hospital" to within a few feet of the main building—the former location being so remote that the warden could not properly look after it. The building has been used, chiefly, since the main building was repaired, as a lodging-place for tramps, who, after receiving a night's lodging, would frequently show their gratitude by stealing the blankets, &c., sometimes soiling and disfiguring the building, and even going so far as to attempt to burn it, the insurance companies refusing to insure it in its old location.

POOR OUT OF ALMSHOUSE.

Owing to the continued stagnation of business and the accession to our list of insane (two being added the past year), we have found it necessary to exceed our appropriation for this department. The present number confined in the insane asylums is ten: Two at Taunton, three at the Asylum for Chronic Insane, and five at the new asylum. During the year your Board have visited the several asylums and seen each inmate that the town is supporting, and found them in good bodily health and very comfortably situated, and we would respectfully suggest to our successors the possibility of some of them being removed, either among their friends or to our almshouse, where they can be supported at a very much less cost, as the amount to be expended for them at the present price of board would be for board and clothing fully \$2,000 per year. This large amount, with such sums as will be required in our regular town disbursements, will require a larger appropriation.

We have rendered small assistance to families at their homes, believing it for the best interests of the town to do so rather than to take them to our almshouse, thereby incurring a permanent expense on the town. Also, we would particularly call the attention of our successors to the importance of investigating each case before any considerable assistance is rendered to ascertain where their legal settlement is, so that the town can be reimbursed from other towns and cities, or the State. During the year we have caused the removal from the town of a family who for some years have been a source of great expense.

ILLEGAL SALE OF INTOXICATING LIQUORS.

At our last annual meeting it was voted to grant licenses only to apothecaries. Feeling that it was for the best interests of the town we have not granted any, although the various apothecaries have made application for them. The granting of licenses, in the minds of some, might seem to be a financial benefit, but in our judgment that consideration would fall into insignificance when compared to the evil influence upon the morals of our community. We feel gratified that our town stands as it does in this respect. To our knowledge liquor is *not* sold openly within the limits of the town, although it may be sold in some private residences. We have had no complaints which afforded sufficient evidence to convict. The year has passed without any prosecution, showing that we, as a town, are perhaps more free from this evil than any of our neighboring towns. With diligence in the future we see no reason why our town shall not retain her standing as one of the most temperate towns of this Commonwealth.

FINANCES.

Pursuant to a vote passed at the last annual meeting, your Board, with the approval of the Treasurer, have changed the entire town debt, and have issued twelve notes, of \$5,000 each, bearing interest payable semi-annually at the rate of 5 per cent. per annum. The first of said notes becomes due May 15, 1880, and one of like amount each year thereafter until the whole debt is paid. By the above change a saving of about \$750 annually will be made in our interest account. It would seem to us to be advisable to make an appropriation each year of sufficient amount added to unexpended balances to take up one of these notes. In this way we can liquidate our debt in a reasonable time, and still keep our rate of taxation at or about the present per cent., which certainly would seem to be a very important consideration.

BOARD OF HEALTH.

During the year we have been called upon to investigate the cause of fatal cases of diphtheria and kindred diseases, and at one house had the drinking-water analyzed, which was found to be badly polluted by surface-drainage. We would particularly call the attention of the citizens to important information published by the State Board of Health in regard to treatment of diphtheria, also to chap.

26, sects. 47 and 48 of the General Statutes regarding householders and physicians.

REMOVING SNOW

is a matter that requires careful and judicious management. The superintendents of streets have placed the breaking of roads in charge of experienced men, as evenly divided throughout the town as possible, with instructions to break out the main and most travelled roads first, reserving as many roads as would seem practicable for the town teams to take care of. We have frequent complaints of delay, as many seem to feel that *their* road should be broken out first. The town owns two large snow-ploughs for breaking roads, and five small ones for use on sidewalks. We also have complaints that the small ploughs are not more extensively used on the cross and narrow streets, where there are no sidewalks. While it seems a hardship to many living on such streets, especially for school children, we think we should subject ourselves to censure if we allowed the travelled road to be injured, which would be the unavoidable case where small ploughs are used on such streets.

FIRES.

The town has been very fortunate during the past year in regard to fires, less than \$140 have been expended in this department, much of which is due to the care which has been exercised by the firewards in not approving bills except for actual services rendered.

REPORT OF THE ASSESSORS

RELATING TO PROPERTY EXEMPTED FROM TAXATION.

At the annual meeting of 1878 the Town "Voted that the Assessors be instructed to assess the value of all property in the town, not the property of the town. That in the next town report they state the value of each parcel of property that is exempt from taxation, and the cause of such exemption. Also report the rate at which our taxes for the current year would have been laid or assessed if none but town and church property were exempt." In accordance with the above vote the Assessors have prepared the following statement:—

DESCRIPTION AND VALUATION OF PROPERTY EXEMPT FROM TAXATION.

Meeting-house and land, First Parish,	\$2,800
Chapel and land, Plain,	2,650
Meeting-house and land, Baptist,	8,800
Meeting-house and land, Methodist,	7,600
Meeting-house and land, Wellesley,	21,600
Meeting-house and land, Grantville,	8,000
Chapel and land, Grantville,	2,800
Meeting-house, stable, and land, Lower Falls (St. John's),	12,100

The above-described property is exempted from taxation under the seventh division of section 5, chapter 11 of the General Statutes.

Wellesley College, personal,	\$49,100
Buildings,	676,950
320 $\frac{1}{4}$ acres land,	41,600
	<hr/>
	\$767,650

Appleton Temporary Home, personal,	\$4,500
Buildings and land,	13,900
	<hr/>
	\$18,400

Wellesley College and the Appleton Home are exempted under the third division of section 5, chapter 11 of the General Statutes; and the rate of taxation for 1878, if this property were not exempted, would have been seven dollars and ninety-five cents on \$1,000.

CHARLES C. GREENWOOD,
DEXTER KINGSBURY,
GEO. K. DANIELL,

Assessors of Needham.

FEBRUARY, 1879.
